

CORNWALL - *PSYCHIATRIST*

Cornwall Hospital is a Schedule 1 facility that provides a full range of acute inpatient, outpatient and community mental health services to their catchment area of 100 000 people from the communities of Cornwall, the United Counties of Stormont, Dundas and Glengarry and to the Mohawk Community of Akwesasne.

With the completion of the redevelopment of a 16-bed inpatient unit in 2014 and the construction the Addiction and Mental Health Centre at the end of 2016, the hospital consolidated all acute care and community based services on their McConnell avenue site.

These services cover the age spectrum of children to seniors and include Adult Counselling and Treatment, Transitional Care, Psycho-geriatrics, Employee Assistance, First Episode Psychosis, Mental Health Crisis (16 years and up), Assertive Community Treatment, Addiction Services (outpatient, supportive residential and withdrawal management), Children and Youth Mental Health (outpatient, outreach, school-based and intensive services).

Remuneration is fee for service billing and sessional fees. Physicians are expected to participate in call and would receive payment from the Hospital On Call Coverage program.
