

THE OTTAWA HOSPITAL- Mental Health Program -Programme Santé Mentale

The Ottawa Hospital is one of Canada's largest learning and research hospitals, with more than 1,100 beds, approximately 12,000 staff members and an annual budget of about \$1.2 billion.

Our focus on learning and research helps us develop new and innovative ways to treat patients and improve care. As a multi-campus hospital affiliated with the University of Ottawa, we deliver specialized care to the Eastern Ontario region, but our techniques and research discoveries are adopted around the world. We engage the community at all levels to support our vision for better patient care.

From the compassion of our people to the relentless pursuit of new discoveries, The Ottawa Hospital never stops seeking solutions to the most complex health-care challenges.

Our Vision:

To provide each patient with the world-class care, exceptional service and compassion that we would want for our loved ones.

Opportunity Mental Health Program – Eating Disorders Program seeking a General Adult Psychiatrist with interest in Eating Disorders Full-time or Part-Time

The Ottawa Hospital (TOH) Mental Health program is a Schedule 1 Facility under the Mental Health Act, which operates the following general psychiatry acute care programs and services at two campuses (Civic and General):

- Psychiatric Emergency Services
- Inpatient Service
- Outpatient Clinics
- Acute Partial Hospitalization
- Consultation Programs & Medical/Surgical Consultation Liaison Service

The Ottawa Hospital also provides specialized programs and/or services:

- Mobile Crisis Team & Community Crisis Stabilization Beds
- Champlain District First Episode Psychosis Program (regional program)
- Perinatal Mental Health Services
- Regional Program for the Treatment of Eating Disorder
- Community Treatment Order Coordinator

The Regional Program for the Treatment of Eating Disorders (EDP) at the Ottawa Hospital has an opening for a staff psychiatrist already interested in eating disorders or willing to develop expertise in eating disorders. The program is a collaborative care model with psychiatrists working as part of a multidisciplinary team serving 6 inpatient beds in the Symptom Interruption Program (SIP), 8 patients in the intensive Day Hospital Program (DHP), outpatient Transitional Care Program, outpatient Relapse Prevention Program, outpatient CBT-based group therapy, consults from hospitals and a variety of community settings including consulting services to community partners such as Canadian Mental Health Association (CMHA). SIP beds are primarily managed by hospitalists as most responsible physician with psychiatric care provided by a psychiatrist as consultant. The position comes with opportunities for those interested to be involved in the training of hospital staff, learners (medical students, psychiatry residents, bariatric medicine fellows, psychology residents and dietetics students) and community partners. The Ottawa Hospital and Children's Hospital of Eastern Ontario are jointly offering an Eating Disorder Fellowship program as well.

1). Job duties:

- Provide care to patients with eating disorders in some combination of inpatient (priority area), outpatient (priority area), and day hospital settings.
- Consult with other health care providers to devise a plan to manage other health issues or medications that may be impacting the patient's mental status.
- Develop and implement treatment plans, including prescription of medications.
- Monitor and evaluate treatment results.
- Evaluate patients by interviewing patient, family, and other persons; observing behaviors; reviewing medical history and related documents; selecting, administering, and interpreting psychological tests; and ordering laboratory tests and evaluating results.
- Maintain historical records by documenting symptoms, medications, and treatment events and writing summaries.
- Update job knowledge by participating in continuing medical educational opportunities, reading professional publications, maintaining personal networks, participating in professional organizations, and be actively involved in education quality improvement projects.
- Leadership opportunities available for those with relevant experience and interest

Terms of Employment:

- Wage range: estimated at \$250,000 – \$400,000, dependent on desired clinical setting distribution and load as well as academic productivity;
- Permanent, Full-Time; On-call, Evening and Weekend coverage of approximately twice per month, Emergency services can prolong scheduled shifts
- Start date: Immediately
- Benefits: Successful applicants will work in a hospital privileges model. Remuneration is fee for service with alternate funding plan for academic work.

Skills Requirements:

- **Language:** English
- **Education:**
 - Graduation from an approved medical school and specific specialty training in Psychiatry.
